Durango & Silverton Narrow Gauge Railroad Offers Opportunity for Community Input

Durango, CO –The Durango & Silverton Narrow Gauge Railroad has created a Web page to give members of the community the opportunity to submit comments, questions, suggestions, and observations to the railroad. Once received, the comments are sent to the appropriate person for a response.

The page was created in an effort to be a better neighbor to our community. “We want to be more in touch with the community and felt this was a good way for people to share their thoughts with us,” said Paul Schranck, Vice President and General Manager of the D&SNGRR.

The Web address is Web.durangotrain.com/communityinfo and can also be accessed from the railroad site at www.durangotrain.com on the “Contact Us” page. The submission page requires a name, address, and phone number in order to be accepted, which will also allow for a response.

The D&SNGRR, in continuous service since 1881, operates authentic coal-fired, steam-powered locomotives through the remote wilderness and high-mountain landscape of the San Juan National Forest in Southwest Colorado.
