

**Fort Lewis College Teacher Education Department and
Durango & Silverton Narrow Gauge Railroad
Collaborative Project 2010**

Professor: Dr. Jennifer Trujillo

Student Teacher: Riley Alderton

Grade Level Focus: Multi-age collaboration packet

This packet was designed to be completed by students of varying ages. The hope is that older students, older siblings, or parents riding the train will complete the activities in it alongside a young student, sibling, or child. Some tasks in the packet are easier than others and may be completed independently. Several will require assistance if the child working on the packet is younger than twelve years of age. Have fun learning about the train together through these fun activities!
